

ScriptableObject

ITileKind< RoomSO >

RoomSO

```
graph BT; RoomSO --> ScriptableObject; RoomSO --> ITileKind["ITileKind<RoomSO>"]
```

The diagram illustrates a class hierarchy. At the bottom is a box labeled 'RoomSO'. Two arrows point upwards from 'RoomSO' to two boxes above it: 'ScriptableObject' on the left and 'ITileKind< RoomSO >' on the right. This indicates that 'RoomSO' is a base class or interface for both 'ScriptableObject' and 'ITileKind<RoomSO>'.
